

## Create notifications and rules for the Smart Water Valve+Meter (ADC-SWM150)

After installing the Smart Water Valve+Meter (ADC-SWM150), notifications and rules should be created to take advantage of its features.

**Note**: In order to create notifications and rules for the Smart Water Valve+ Meter, verify that *Water Management* and *Water Management*+ is selected on the customer's service package.

Media, iframe, embed and object tags are not supported inside of a PDF.

## To create notifications for the Smart Water Valve+Meter (ADC-SWM150):

1. Verify that the Smart Water Valve+Meter is installed and added to the account. For more information, see <u>Smart</u> <u>Water Valve+Meter (ADC-SWM150) - Installation Guide</u>.

- 2. Log into the Customer Website or Customer app.
- 3. Click Notifications.

LOG OUT	4	Consider 7, VID 2004 Station & Market sources	Tome	Diane Bri	•

- 4. Edit the desired notification(s):
  - Click ✓ next to Water Flow Alert. If the alert has not been set up, Resolve will display.
  - Click I next to System Actions to watch, then check the box labeled My plumbing system is at risk for frozen pipes.
- 5. Check the device and events you would like to be notified about.
- 6. Add recipients, then click Save.

**Note**: If the dealer has enabled the default notifications, the user's primary email will automatically be subscribed to receive notifications for all leaks.

- 4. Click ✔ next to Water Flow Shut-Off Rule.
- 5. Select which actions you would like for each of the leak types. Check the box for the meter before saving.
- 6. Click Save.

**Note**: Sensor-triggered valve rules are accessible just like they are for the existing water valve, by creating event-triggered rules.
