The *i²Box* Appliance, greatly simplifies installation because Keri's *Doors.NET Appliance Edition Software* is pre-loaded and pre-licensed, ready to use immediately. The i² Box is an embedded mini appliance with 8GB RAM and 120 GB SSD drive, capable of managing an access control system of up to 64 readers and 3000 cardholders. Installers will appreciate the time and hassle this unit saves, because it virtually eliminates Windows® problems and other system issues commonly found when using a PC provided by the customer, or purchased from a retailer. The appliance comes complete with a keyboard and mouse.

The i² Box Appliance is configured with Doors.NET Appliance Edition Application Server, *Microsoft SQL Express® database, and selectable PXL-500, PXL-500/Entraguard, NXT, and Mercury Powered NXT Gateways that allow it to connect to any Keri controller type. Simply choose your hardware type and start configuring the system.

Windows and *SQL Express* are registered trademarks of the Microsoft Corporation in the United States and/or other countries.

The *i² Box* Pre-loaded Appliance Features:

- Ultra compact size, pre-loaded with *Doors.NET Appliance Edition Access Control Software*

- No waiting for software to install, or dealing with initial Windows® updates and other system issues

- Saves installer time, money, and hassle

- Suitable for installations up to 64 readers and 3000 cardholders

- Eliminates errors and variability found in customer-provided or off-the-shelf PCs

- Turn it on, select your hardware type, then start programming immediately

- Small, quiet, IT-friendly/ready package with 4th generation Intel processor

NOTE:

There are two other appliance versions available.

The *i² Plus* and the *i² Pro*

- **More memory and features**
- **Suitable for installations of up to 512 readers and 1,000,000 credentials**
- **Ask us for help deciding which mini-appliance best fulfills your needs**
