

MOUNTING POSTS

ACCESS CONTROL

- A full line of mounting posts to meet your specific application and design requirements
- All posts are easily pad mounted - or if a mounting pad does not exist, an in-ground adapter makes mounting quick and easy
- Baked on enamel finish is durable and weather resistant
- All posts feature a cover to hide mounting bolts
- Heavy-duty posts are available in offset style for vehicular traffic, or a straight style for walk-up pedestrian traffic
- Heavy-duty designer style posts have provisions for accessory transformers, surge suppressors, radio receiver and optional light tower

ACCESS CONTROL SOLUTIONS

MOUNTING POSTS

The DKS mounting posts can be used for vehicular or pedestrian traffic, and are designed to be pad mounted or mounted using the in-ground mounting adapter. The standard mounting posts are ideal for card readers, digital keypads and smaller telephone entry and access control devices. The Architectural style posts are designed for telephone entry systems. The Heavy-Duty Designer style posts are ideal for telephone entry systems and include a compartment that can hold up to 4 accessory transformers, 3 surge protectors and an RF receiver. Additionally, the optional Light Assembly provides for illumination.

Mounting Posts

Heavy Duty Designer Style

- Constructed from 4 x 8 steel
 - 11 inch x 13 inch mounting plate for DKS telephone entry system
 - Locked accessory compartment holds 4 transformers, 3 surge suppressers and radio receiver
